

Docket No: JEANJEAN  
Appl. No: 10/510,115

**BEST AVAILABLE COPY****REMARKS**

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has amended claims 1-27 to remove any multiple dependency of the claims and to present these claims in proper form and language and to better encompass the full scope and breadth of the invention notwithstanding applicant's belief that the claims would have been allowable as originally filed. In addition, a new independent claim 28 has been added. No claim surcharge is believed to be due because, the application included initially 29 claims for fee purposes, as a result of a multiple dependency, and applicant paid the fee for 29 claims. As a result of this preliminary amendment, the application includes now 28 claims, with three independent claims.

Applicant has also amended the specification to present it with proper headings and to delete a reference to a particular claim number.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By:
